Dear Valued Customer,

Thank you for your interest in our custom printed flags, banners and accessories. This catalog provides a comprehensive overview of the products we are offering. As you can see, we have added many new advertising flags such as the Blade, Teardrop and

the 360° Pole Banner.

The hardware systems which we offer for our advertising flags are light-weight, easy to install and versatile for indoor and outdoor use.

On the next page, notice all the printing options available for production of your flag or banner. One of our hallmarks is the ability to provide excellent color matching and penetration.

Before printing the

order, we will partner with you to determine the best production method to achieve the desired results.

Your business is greatly appreciated. So, please feel free to contact us regarding any questions you may have about our products and services. We look forward to hearing from you.

Thank You.

How We Make Your First Impression A Lasting One

Leading the way in the printing of premier quality custom flags and banners. We obtain uniquely deep, rich, authentic colors and precision imaging by applying exclusive printing and finishing processes to the highest quality fabrics available. We maintain the highest standard for achieving the best penetration in the industry.

We utilize rotary, flatbed, dye sublimation and digital printing to fulfill your custom flag and banner orders for promotions, point of sale displays and visual merchandising.

Pole and Crossbase
with Waterbag

Blade Flag

Our Core Techniques for Textile Printing

Flag size and quantity determine the printing method

High Speed Rotary Printing

- Acid-dye on nylon
- Pigment process on polyester and poly cotton
- Disperse dye on polyester
- Cost effective printing with outstanding color for high volume runs

Flatbed Screen Printing

- Acid-dye on nylon
- Pigment process on polyester and poly cotton
- Disperse dye on polyester
- Cost effective printing with brilliant, lasting color and durability for medium to high volume runs

Digital Direct to Fabric

- Acid-dye on nylon
- Disperse dye on polyester
- Color fastness and brilliance plus high resolution for short runs and individual items

Dye Sublimation

- High-speed offset on polyester
- Digital on polyester
- Brilliant color and maximum resolution for short and long runs

Our Creative Team reviews each art file to ensure that the best possible flag or banner will be produced. We adapt your high-resolution artwork to the requirements of textile printing and adhere strictly to your color specifications.

We employ the Pantone® Matching System, or we will match a printout, sample or swatch that you provide. Our excellent color penetration on nylon fabric allows us to achieve saturated black with ease that few, if any, competitors can match.

Each custom project is unique and requires attentive customer service. Our expert sales and technical teams work hand in hand to understand your needs and advise you of your options and are always available to answer all of your questions.

Custom Printed Rectangular Flags

- Flags made in the U.S.A.
- High resolution digital printing
- Each flag is finished with a canvas heading and grommets
- Fly hems are finished with four rows of lock stitched construction
- Each fly corner is reinforced with a back tacking stitch

Custom Appliqué & Embroidery For Flags

EMB100 Embroidered Flag

- Flags made in the U.S.A.
- Perfect for ceremonial events, religious institutions, formal functions and historical places of interest
- Fringe and tassels are a nice way to accessorize your flag or banner

EMBROIDERY

- The art of embroidery allows for a raised design to be achieved utilizing thread in various colors
- Embroidery adds elegance and style
- We utilize a multi-head machine to complete our embroidered flags and banners.
- Fabric options include Felt or 200 Denier Nylon
- Letter sizes cannot exceed 6"
- Maximum diameter for embroidery is 18"

APPLIQUÉ

- Appliqué creates texture to your flag or banner by applying a cut out fabric design which is then sewn on to a flag or banner
- The background fabric is 200 Denier Nylon

APP100 Appliqué Flag

PRICING

- All prices are quoted after reviewing the artwork, design and letter sizes
- We offer single sided and double sided flags
- Reference our color chart on page 12 or call Customer Service for a complete list of available nylon fabrics
- Please allow 4-6 weeks lead time from approved artwork

Artwork Preparation

ELECTRONIC ARTWORK:

We ask that you provide us with computer generated artwork in the proper format for production. Raster images/artwork need to be high resolution files, (300 dpi at full size). Providing sufficient artwork will result in non pixilated images when printed. We also implement the Pantone Matching System for all projects. Providing the specific PMS colors for your artwork is preferred.

ARTWORK REQUIREMENTS:

We accept the following artwork files:

- Adobe Illustrator (.ai) up to version CS4
- Vector EPS Files (.eps) generated by drawing and layout applications
- PDF Files (.pdf) exported from Corel Draw or other Adobe Software

- Please outline fonts or provide the fonts used in your artwork
- All Files should be saved as RGB to allow for maximum color gamut
- Please note: Pixel based files are printed as received

LICENSED SOFTWARE:

Adobe Creative Suite 4: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe Acrobat, Colorburst Rip Software, Flexisign Pro

EXCEPTIONS:

Due to the diversity and complexity of submitted artwork we reserve the right to reject artwork we deem unsuitable or impractical for our printing methods.

Disclaimer: All images depicted in this catalog illustrate and represent product craftsmanship and quality.
